

Special visitors from Balarus

1

On 22nd June 2006, we were delighted to welcome twelve children, along with three other friends (who helped us with our different languages), to our school. They had come all the way from the city of Mogilev in a country called Belarus.

Here they are in our school hall...

Belarus is in Europe; it lies between Poland and Russia. We were given this tea towel as a gift...

The children had come to stay in Wesham, not far from Weeton, for a month. Their visit was organised by a [Friends of Chernobyl's Children](#) group from Christ Church, Wesham.

We had a lovely morning getting to know our new friends. They gave us a lot to think about. Here are some pictures showing what happened...

We drew self portraits and wrote about our favourite things...

This is 9-year old Lera and her family...
